Commuting

In Indiana, most workers commute to a job, either within their home county or beyond. Patterns of commuting are significant in showing the labor supply. The county *labor force* represents workers who reside in the county no matter where they work. Two types of commuting patterns are provided here - the Census 2000 *benchmark* and the annual data tabulated from state income tax returns that can help provide a more current view.

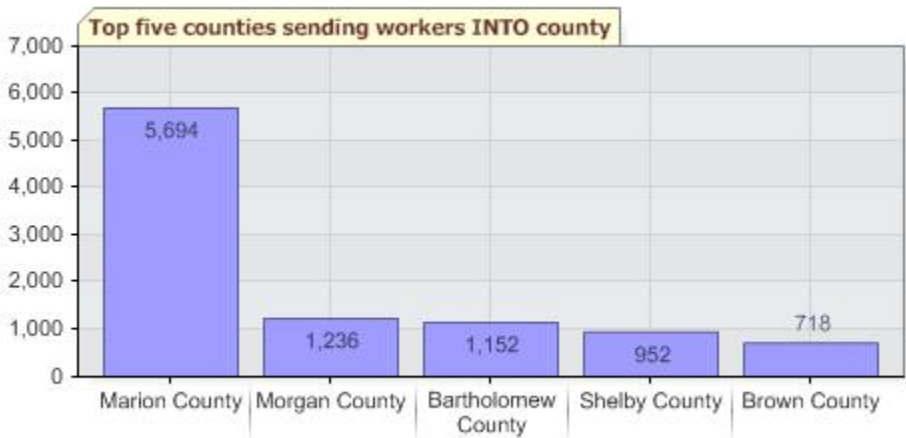

Commuting Data, 2007

| | Number |
|--|--------|
| Number of tax filers who live in county and work | 90,952 |
| Number of tax filers who work in the county | 65,434 |
| Number of tax filers who live in county and work in county | 53,424 |
| Number of tax filers who live out of the county and work in county | 12,010 |
